This proposal will destroy prime farm land, this land has been the recipient of Environmentally Sensitive Area payments since at least 1995. It's also A FLOOD PLAIN

I don't know who pulled this plan out of their ass but they had no idea what they had circled on a map.

I will stop at nothing to see this stopped. I haven't seen a Kingfisher since Kingfisher close was built last year. I hate humans, I came here to get away from you all.
